Agenda

- Digital training
  - For who?
  - Advantages
  - Disadvantages
- Outsourcing
- A different approach
  - Dyna Training Platform

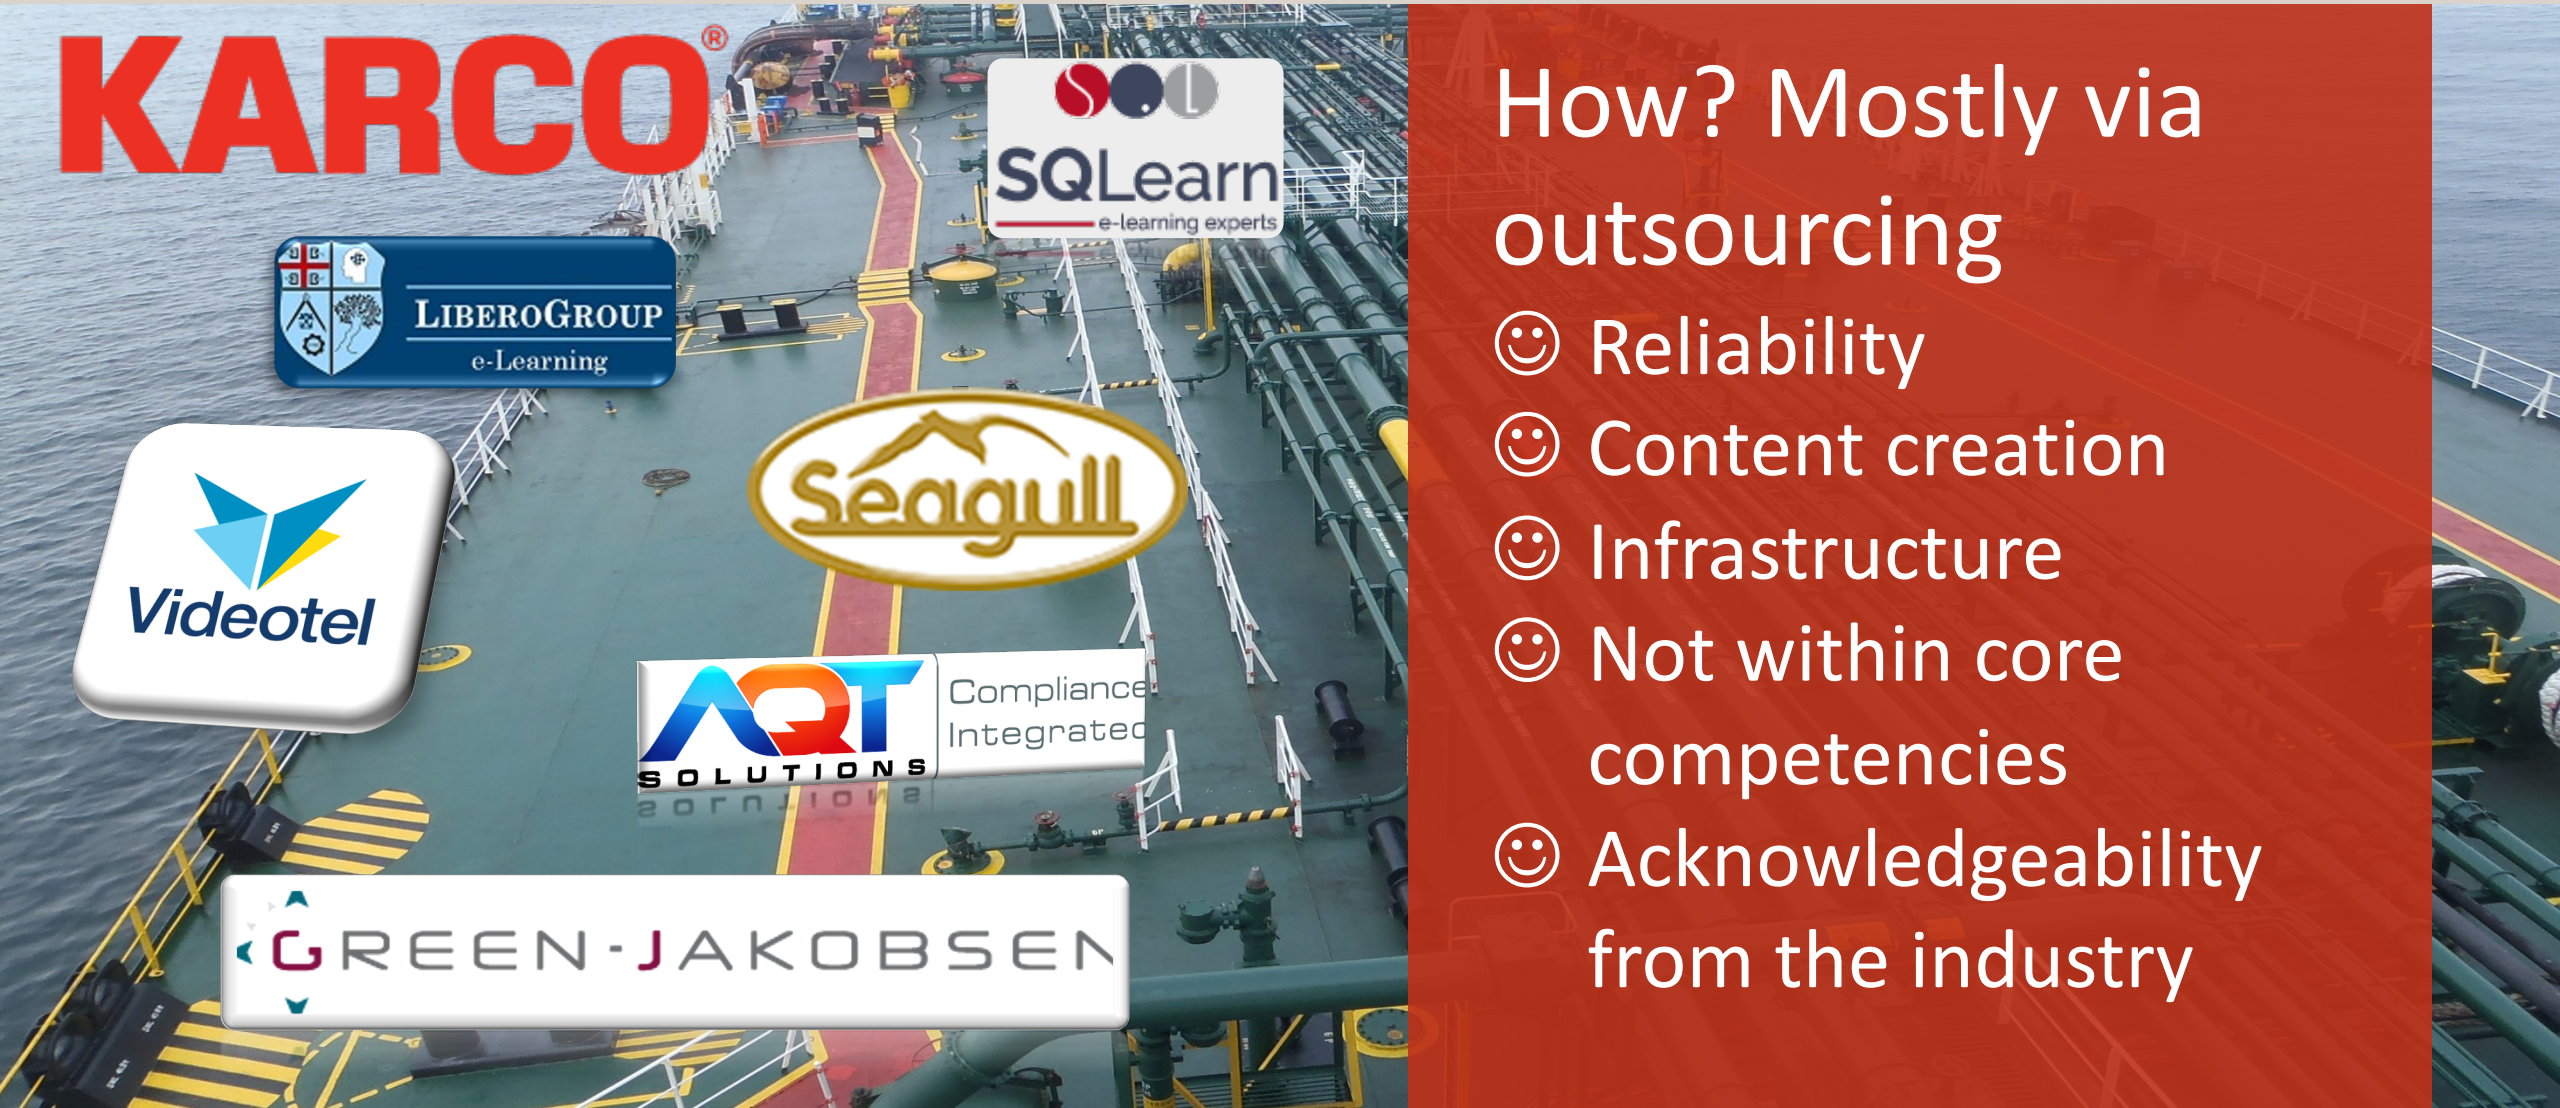
Training on the digital plain WHY?

Digital Training in the Maritime environment

For whom?

- Crewmembers
- (Seafarers on leave?)
  - 90% in favor
- (Office personnel?)

Digital Training in the Maritime environment



How? Mostly via outsourcing

- ☺ Reliability
- ☺ Content creation
- ☺ Infrastructure
- ☺ Not within core competencies
- ☺ Acknowledgeability from the industry

Digital Training in the Maritime environment

How? Mostly via outsourcing

☹ Price

☹ Company specific content

Is outsourcing the only way?

Dyna Learning Management System

How it started for us

What we wanted from a Training platform

- Office personnel
- Seafarers on leave
- Host company specific material
- Relatively low cost
- Mild learning curve
- Not labor intensive maintenance

Dyna Training Platform Usage

Preparation

The platform material can be used to conduct flipped classroom sessions

Dyna Training Platform Usage

Preparation

Support after training

Enrolled trainees will have access to the educational material on the platform even after the actual course has been completed

So, what's the catch?

- It's not only about the infrastructure
  - But mainly about the content
- The benefit increases with content creation capability
  - Specialized software
  - Instructional designer(s)

THANK YOU
