DEMYSTIFYING COMPLEX CONNECTIVITY

Paul PETIT JEAN

VP
Head of Maritime Business Unit

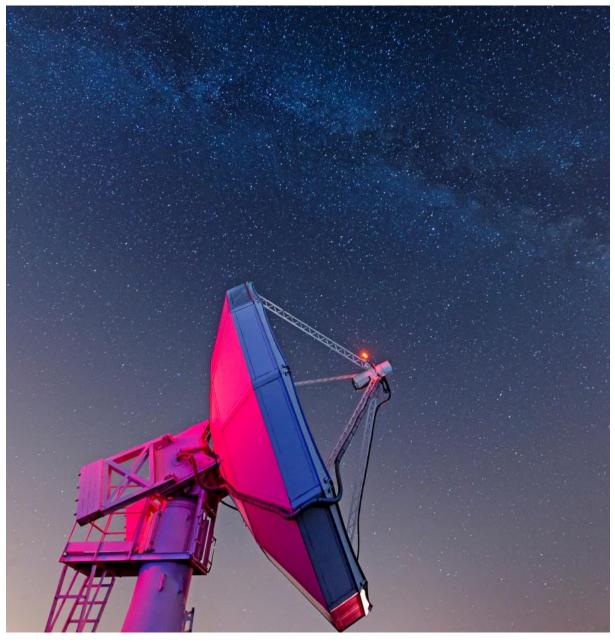

EUTELSAT

PPETITJEAN@EUTELSAT.COM

TOPICS TO DISCUSS

- Eutelsat ADVANCE Reliable Backbone Connectivity for Service Partners to Innovate
- Future-proof technology with competitive advantage
- Towards a multi-orbit GE/LEO strategy to answer to all needs
- ▶ Q & A

A KEY PLAYER IN THE SPACE BUSINESS

PIONEER IN SPACE

40 YEARS OF EXPERIENCE

34

SATELLITES
FOR GLOBAL COVERAGE

ONGOING INVESTMENT PROGRAMME

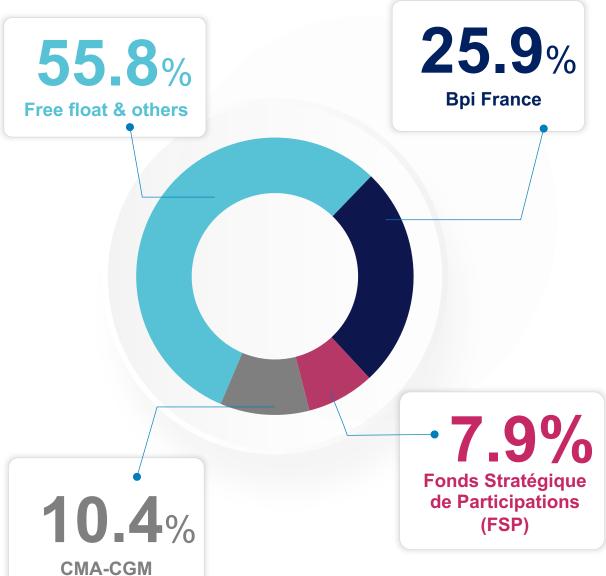

SATELLITES
LAUNCHED in Q4 2022

+ Order of new Flexsat

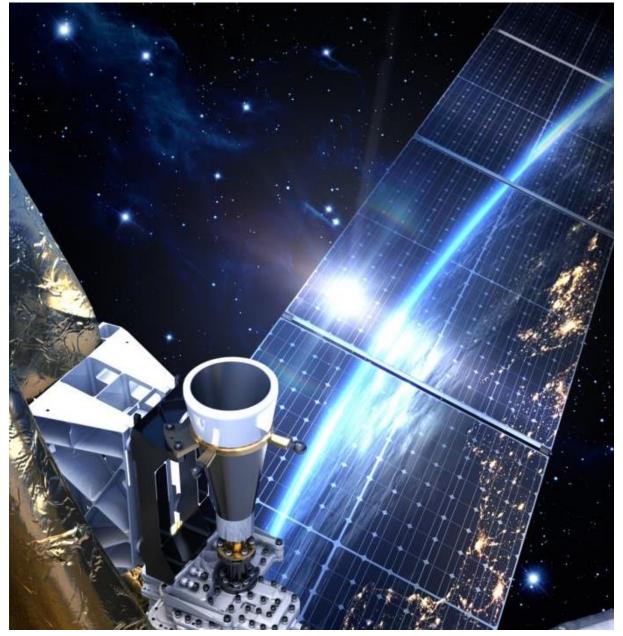

OWNERSHIP

THE EUTELSAT CONTRIBUTION TO FUTURE OF SATELLITE COMMUNICATIONS

Accelerating the transition to ALL-ELECTRIC satellites

Spearheading a new generation of SOFTWARE-DRIVEN satellites

Pioneering very high throughput VHTS technology to amplify capacity everywhere

Combination of Eutelsat and OneWeb getting the best of GEO and LEO

EUTELSAT + ONEWEB A LEAP FORWARD IN SATELLITE CONNECTIVITY

- ► Signature of a MoU with the objective of creating a leading global player in connectivity through the combination of both companies in an all-share transaction
- ► Eutelsat will combine its 36-strong fleet of GEO satellites with OneWeb's constellation of 648 LEO satellites, of which 428 are currently in orbit
- ▶ Eutelsat shareholders and OneWeb shareholders¹ would each hold 50% of the Eutelsat shares
- Eutelsat would own 100% of OneWeb (excluding the "Special Share" of the UK Government)
- The transaction values OneWeb at \$3.4bn implying a value of €12 per Eutelsat share
- ► Completion of the transaction expected around by end of H1 2023
- Combined entity strongly positioned to address the fast-growing global connectivity market

First to launch

a Global Ku-band iDirect Service with Automatic Beam Switching in 2008

Global Mbps Network

serving Maritime, Enterprise, Government and Aviation

100% Indirect distribution

now extending form MHz to Mbps, one step further in our mission

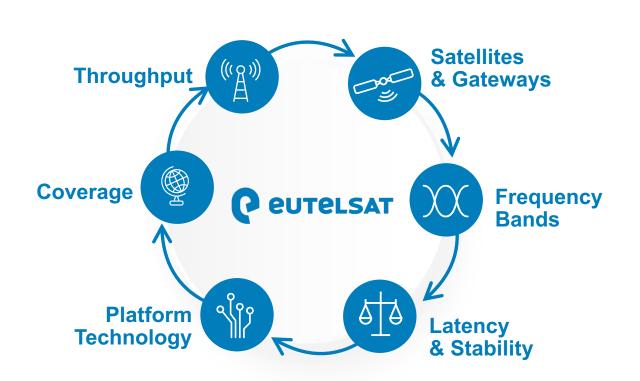

Lower barriers of entry

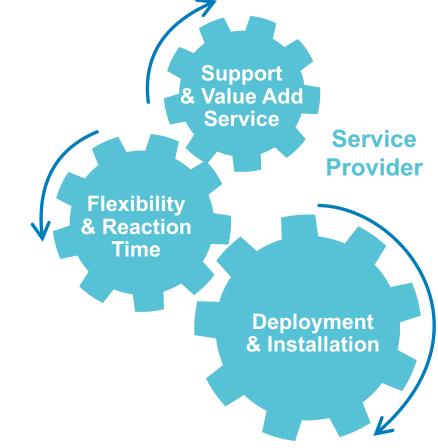

for new players in the maritime connectivity world: you

EASING THE BURDEN FOR MARITIME SERVICE PROVIDERS

Solidifying partnerships for direct touch, indirect fulfilment

Maritime operators require optimisation of all from above today, to enable the digitalisation goals in supporting a host of downstream applications and crew connectivity requirements

INTRODUCING EUTELSAT ADVANCE

A global satellite network-as-aservice that integrates all capacity in a simple and seamless way.

Distributed by an ecosystem of Service Partners.

FLEXIBLE

- → Highly flexible solution
- → Full Management & Control
- → Multiple Markets

SCALABLE

- → No CAPEX for clients
- → Bandwidth can be increased or decreased
- → Services scalable UP and DOWN

GLOBAL

- → ONE SINGLE integrated platform
- → Seamless connectivity (Eutelsat & 3rd party)

EASY TO IMPLEMENT

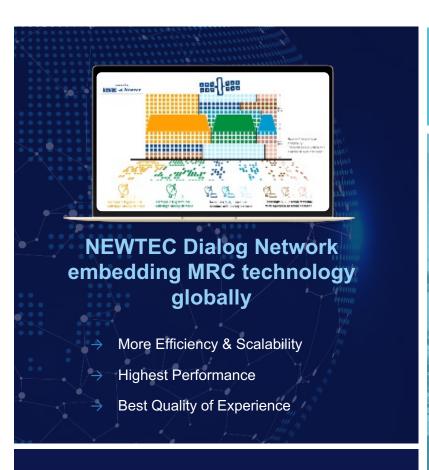

- → Fully AUTOMATED CATALOGUE management
- → Minimum time-to-market

HIGH PERFORMANCE

→ Reliable, resilient, highcapacity, high-speed communications across regions

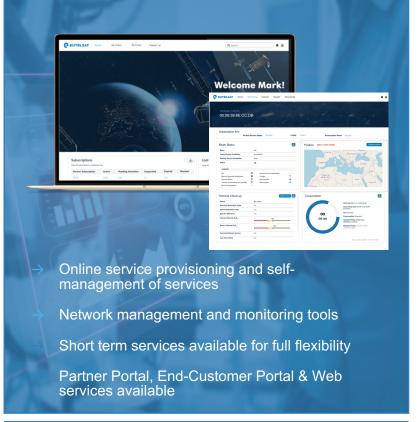

BEST PLATFORM TECHNOLOGY WITH USER EXPERIENCE FOCUS

Reliable, redundant, future-proof ecosystem

24/7 Support with expert NOC

Automation & Streamlined Operational Support

PORTFOLIO OF SERVICES TO MEET EVOLVING NEEDS

Eutelsat ADVANCE MERCHANT

Packaged and VNO SLA-based services designed for optimal data assurance

Eutelsat ADVANCE CRUISE & FERRY

High Mbps focused VNOs, used on a multi-regional basis

YATCHING

Predefined high performance And flexible VIP packaged plans

Eutelsat ADVANCE OFFSHORE

Packaged and VNO SLA-based services designed for optimal data assurance

Multi-Regional or Global

Multi-Regional

Regional / Multi-Regional

Global

Wide range of levels of service (Best Effort to High QoS 50% CIR)

High QoS and Bandwidth

Wide range of high-performance plans (up to 15/5 100% CIR)

High QoS / symmetrical services

Resilient Connectivity (i.e. Satellite Redundancy)

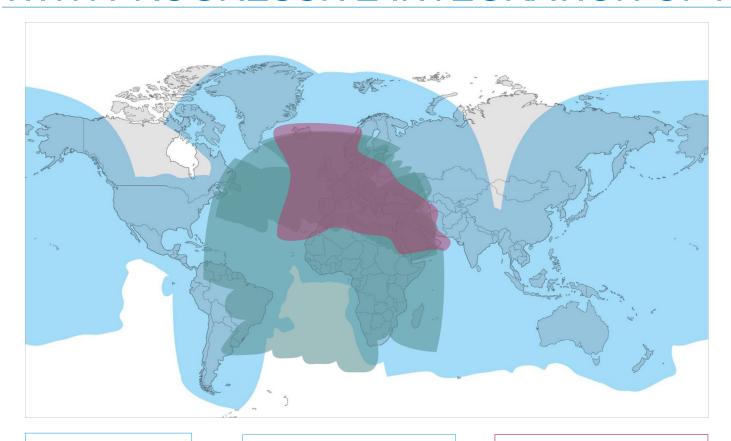

Flexible & Scalable Solutions which allow to increase and/ or port capacity across vessels/ regions

Flexible & Scalable Solutions which allow to accommodate seasonal changes/ volume

CIR for critical comms, reliability

A COMPREHENSIVE ECOSYSTEM WITH PROGRESSIVE INTEGRATION OF FUTURE CAPACITIES

Global Ku-Band Satellite Network

Regional Densification (E10B HTS, E10B GMS)

Additional Ka-Band high-throughput (KVHTS)

UNIFIED VIA

Eutelsat's Global Orchestration System

- Unified OSS / BSS / Portal / APIs
- Ground Network Infrastructure, PoPs
- · QoS / DPI Systems

MARITIME LEO VALUE PROPOSITION

High-speed

Up to 100Mbps+ using marine UT

Low latency

70ms between UT and Eutelsat PoP

Global coverage

Including Arctic

Security

Full channel encryption

Reliability

Embedded fault tolerance and spare satellites

Compact UT

Dual 53, 73m marine parabolic antenna

Low capital UT

~ 10% of the price of Offshore 2.4m stabilized antenna

~ 1/4 of the price of Maritime VSAT antenna

In a nutshell

- → Offshore Live NOW
- → Mobility Trials starting Q1 2023
- → Double antennas 74cm first,
- → Hardware + Services
- → Simple packages with GB allowance
- → 3 speeds for 3 main segments

10/2 Mbps **Fishing** Merchant

50/10 Mbps **Tankers Yachts**

Offshore

Passenger

UT: User Terminal

PoP: Point of Presence

THANK YOU

...to Digital Ship and all participants!
